

PRASAD AKKI

Product Manager

Bengaluru, India 560076 | +91 959 085 7896 | akki.prasad100@gmail.com | www.prasadakki.in

PROFESSIONAL SUMMARY

Results-driven Product Manager with 7+ years of experience building AI-powered, data-intensive products at scale. Hands-on with LLM integration, prompt engineering, and AI-assisted workflow automation leveraging tools like Cursor, Bolt, and Lovable for rapid prototyping. Proven track record delivering end-to-end product lifecycles: from discovery and PRDs to GTM and scaled deployment. Adept at bridging engineering, design, QA, and business stakeholders in Agile environments to drive measurable user outcomes.

CORE COMPETENCIES

AI/LLM Product Development • Prompt Engineering & AI Workflow Automation • Personalized Adaptive Learning Systems • Data Platform & Dashboard Products • End-to-End PDLC • Agile / Scrum • PRD Authoring • Roadmap Development • A/B Testing • Stakeholder Management • SQL & Data Analytics • API Documentation • Figma / Wireframing • Jira / Trello / Monday.com • Mixpanel / Google Analytics

PROFESSIONAL EXPERIENCE

Assistant Manager – Product | **Convegenius.ai** | Bengaluru, India Dec 2022 – May 2026

AI-powered K12 EdTech platform serving state governments and 50,000+ active learners

- Owned end-to-end product lifecycle for the Personalized Adaptive Learning (PAL) system, an offline-first, AI-driven K12 recommendation engine from discovery through scaled deployment to 50,000+ active users.
- Leveraged LLMs and AI automation to streamline internal content creation workflows, reducing manual effort and accelerating the 40-step PAL content pipeline across 6 phases (Preparation, Validation, Media, Testing, Production).
- Drove 8–10% measurable improvement in student baseline-to-endline assessment scores through iterative, data-driven feature development and adaptive learning logic.
- Spearheaded the Integrated Dashboard Platform (IDP), consolidating 1,000+ fragmented government data sources into a unified data product for 10+ state education departments - improving data accessibility and decision-making at scale.
- Collaborated with government stakeholders to deploy attendance-tracking features impacting 100 million students, resulting in a 2% improvement in attendance rates.
- Managed an international test prep product for a Singapore-based client, owning the full PDLC from market research to launch.
- Built rapid prototypes using Cursor, Bolt, and Lovable to accelerate stakeholder alignment and reduce engineering handoff friction.

Associate Product Manager | **Bytelearn.ai** | Remote, Karnataka Mar 2022 – Sep 2022

AI-assisted math learning platform for K12 students

- Increased user engagement by 23% by identifying and launching new learning categories through in-depth customer data analysis and behavioral research.
- Led a cross-functional Product Pod (Engineering, Design, QA) in Agile sprints to deliver high-velocity feature releases aligned with learning outcome KPIs.
- Authored comprehensive PRDs and technical documentation, aligning internal stakeholders on product vision, scope, and success metrics.

Sr. Product Compliance Associate | **Amazon India** | Bengaluru, India Dec 2019 – Feb 2022

Marketplace integrity and compliance operations

- Designed and engineered processes to detect and mitigate evasive seller techniques, protecting marketplace integrity at scale.
- Facilitated cross-functional collaboration between Food Safety and Document Review teams, achieving 100% compliance across audited workflows.
- Recognized with 'Ace of Spades' (2x) and 'Performer of the Month' for consistently exceeding operational KPIs.

Transaction Processing Associate | Accenture India | Bengaluru, India *Aug 2018 – Dec 2019*

- Maintained 90%+ operational efficiency on Project Wolverine, adhering to strict client policies for social media content moderation.
- Served as Subject Matter Expert (SME), conducting on-the-job training and floor support for 20+ new hires.

EDUCATION

Bachelor of Engineering – Electronics & Communication

2014 – 2018

BVBCET (now KLE Technological University), Hubli, KA | GPA: 7.81/10

Leadership: President, BVBIEEE Student Chapter (2018); Team Lead, Entrepreneurship Cell (Team MiB)

CERTIFICATIONS & LANGUAGES

- Global Immersion in Innovation & Entrepreneurship, UMass Lowell
- StartUp India Learning Program
- Languages: English (Advanced) | Kannada (Advanced) | Hindi (Upper Intermediate)

AI & PROTOTYPING TOOLS

LLM Integration & Prompt Engineering • Cursor (AI code editor) • Bolt (AI app builder) • Lovable (AI UI prototyping) • Claude / GPT-4 for workflow automation • AI-assisted PRD and documentation generation
